# CITY TO BE ENLARGED.

A Scheme to Take the County in the Limits of Cincinnati. 1.

Lessening of Taxation and Fewer Officers Promised-How a Wealthy Corporation Was Worsted By Citl-

CINCINNATI, July 19 .- There is being formulated a scheme to make this city and Hamilton county coextensive. It may not be ready this winter for the Legislature to take hold of it and refer it to their able committee on municipal corporations, where through diverse ideas, opinions and amendments it can be molded into suitable shape for passage, but the question is bound to arise sometime within a year or so. I am not at liberty to give anything more than the mere fact that such a project is being talked about, and a general outline of the arguments that will be used to support it. The projectors say that as far as taxation is concerned, the rate would be uniform instead of as now, two rates, one for city and the other for county purposes. and in place of an increase which the opponents of the measure will nrge, there will be in fact a decrease. All expenditures relating to the country districts would be met out of consolidated funds, the city deriving a benefit o increase in its funds by adding to them the one-third of the proceeds of the tax duplicate which is now used by the county alone, and the county in a like manner sharing equally in the projects of general improvements, securing a more perfect and wealtheir system of roads, bridges, police, educational and other purposes. Fifteen incorporated villages would be annexed, thus lessening considerably the taxation required to keep up separate governments. The police system would of course be increased, but not to the extent of expenditures for this purpose under the present system of separate incorporate jurisdictions. Again, much, it is nrged would be saved in school expenses, all the schools of the county thus coming under the care of the city Board of Education. Further, a decrease of officials would follow in abolishing the City Treasurer, Comptroller, and Board of Public Works, as well as the Treasurers, Auditors, Mayors and Councilmen of the several incorporated villages in the county. The duties performed by these officers would be transferred to the county Treasurer, Auditor and Comm.ssioners, the Mayor of the city and Board of Conncilmen. Connected with this scheme it is proposed to reduce the latter body to the smallest number consistent with the requirements and responsibilities of municipal legislation. Another feature insisted upon is that in place of the extra expense incurred in keeping up two infireries a consolidation would be effected under one direction that of the city. This is but an outline of the proposition, but a grand howl will be raised when the matter is advanced sufficiently for public criticism. It will be presented by the opposition that none of the means for lessening taxation under the project can be realized; that the old system of two jarisdictions, city and county is the best, and to change as proposed, would entail expense and indebtedness of burdensome amount; that the country districts would in no wise be benefited since their interests would merely be neglected for those of the city proper. But, notwith-standing this view the scheme will come to the public for discussion and be

Big corporations are not always powerful. Ten years ago the Cincinnati Fertilizing Company, the backbone of which was in abundant capital furnished by several gentlemen who had the inside of local finance and privileges, obtained a contract from the city very favorable to itself. This contract involved the removal of all dead animals and offal suitable for the company's purpose from the city limits, the city paying therefore \$15,000 per year. The company utilized the carcasses and offal in the manufacturing of fertilizers, on which a handsome profit accrued, in addition to the sum paid by the city. As a consequence the company waxed lat, sancy and exacting, insisting upon its right to have the contract renewed at the old rate, but upon the Board of Public Works advertising for bids for removing dead animals and offal for the next ten years, it was found that several companies would do the work from one-third to one-fifth less than it had been done heretofore. Indeed, if it came to the point, one or two companies outside the city offered to do the service gratuitously, but the old company reorganized and renamed, got the centract on its bid of being paid \$2.500 per year. In the meantime the company's factory, which for years had been located at Delhi, seven or eight miles down the river, and suffered the anathemas of everybody in the neighborhood on account of its nauseating odors, was removed to Spring Grove avenue, but three miles from the heart of the city. This oc-curred about a year ago and when the early spring came on and the factory sent forth its norrible aroms the citizens within a mile of the locality, and they included many who occupy some of the most attractive and luxurious houses in the city, arose in their wrath and the Dessicating Company's factory was indicted as a nuisance. Si Keck, President of the company, said \$100,000 would be used in litigation before the factory would move, but it seems he and the directors have changed their minds since ne more dead animals are bolled on Spring Grove. The company have gone back to Delhi. This is one instance where a powerful corporation got the worst of it in a tussel with the suffering citizens.

It Was a Voice Held Him Back. NEW YORK, July 18 .- Mr. J. C. Noble,

whose self-written obitnary appeared in the Tribune, and was supposed to have committed suicide, was found by a reporter, to whom he made the following statement:

"I have had a strange life-a life full of remarkable experiences. I've been rich and poor, and I've had friends a great deal better than I deserve. I was on the ferry-boat between Cortland street and Jersey City all night and tried to commit suicide by jumping over, but each time was re-strained by the voice of my Savior. They may think I am crazy, but I'm not. I never harmed a human being in my intentions." lle carried a stone weighing six or seven pounds wrapped up in a paper with him all Monday night, which he said he intended to attach te a cord and tie around

### FATHER CORRIGAN'S IDEAS.

A Book .That the Catholic Authori-

ties Do Not Endorse. NEW YORK, July 18 .- The Rev. Palrick Corrigan, pastor of the Catholic Church of Our Lady of Grace, Hoboken, has written a painphlet of furty-five pages on "Episco-pal Nonduations," which has been con-demned by Bishop Wigger of his diocese, who ordered the suppression of the edition. The publishers, however, had already issued about 600 copies, part of which are in circulation. Father Corrigan is pastor of what is perhaps the largest congregation in the United States. It is said that from 9,000 to 10,000 persons attend his church. The pamphlet is addressed to the priests of the United States, and begins with the following statement:

"The best interests of the Church in the United States require that the priests, or a certain qualified number of them, should

have the power of nominating the Bishops.

The subject is indeed a delicate one," the writer says, "but we can hardly expeet the Bishops themselves to take the initintive. I simply undertake to sow the seed. The mere preliminary step may easily be followed, if necessary, by a proper organization, the branches of which will extend to every diocese, in order to obtain the sentiment of all the Bishops and priests of the land. The whole matter rests with the Bishops, for it is certain that Rome will grant this power to the priests if the Bishops think it for the best interests of the Church of this country."

The author describes the condition of the

Church in Italy, France, and Spain, and adds: "The very l'opo himself does not dare to appear on the streets of Rome for lear of losing his life, nor does he dare to leave Italy lest the Government should try to procure a man who would be willing to play the part of Pope in Italy."

Writing of the defects of the present system, the Rev. Mr. Corrigan calls attention to the fact that there is not a solitary representative of the American Church in the city of Rome nor a representative from Rome in the United States, and that the very Bishops of the American Church are dependent on the enterprise of a pious lady convert at Rome for the first anthentic information of the appointment of the Bish-

ops of this country. "Yes, the pamphlet has been discountenanced by the Bishops," said the Rev. Mr. Corrigan.

"On what grounds?" "That I am wrong on the questions of the Bishops, the schools and the finances. But a very small part of the edition of 3,090 copies had been issued when its publication was stopped by my order."

"Do you preach these doctrines from your pulpit?"

"I have done so. But as the matter stands at present I do not leel at liberty to converse on the subject."

### RETICENT KER.

The Bankers Will Try to Recover From the Brokers.

Cincago, July 19 .- Fredrick Ker, the defaulting clerk, brought here after his capture in Peru, refused to plead, either guilty or not guilty, when arraigned. He was remanded to jail. His former employer, Mr. Kean, of Preston, Kean & Co.,

"I did not elicit anything new from Mr. Ker in my interview with him," "hut I think he is penitent, and will aid us to recover our loss to the best of his ability. According to memorandums furnished us be commenced his stenling three years ago, and used most of the money in speculating on the Board of Trade. I believe he did not take away very much more thun was found on him at his arrest, and that is hardly enough to pay the expenses of the chase. We may be able to recover from the brokers who got the money out of Ker, but of that I can not speak at present. Ker says he intended to go into business in South America and repay us every cent, but that is an old story dishonst employes frequently use to gain sympathy. As soon as we obtain any definite statement from Ker we will make it public."

### Snillyan and Siade.

NEW YORK, July 19 .- Some time ago an agreement was entered into between Messrs. Al Smith and H. J. Rice, acting on behalf of Sullivan and Slade, for an encounter with the gloves, to take place at Madison Square Garden. This fell through, owing to the rent of the building having been doubled and Rice declining to agree to the payment of \$1,000. Mace now states that Rice was not acting with any authority in the matter and that he is not wiiling to allow Slade to meet any one unless the receipts are shared equally. Sullivan's principal supporter holds the key to the situation, and he informed a reporter that it was no use of Mace or any one else atlempting to get better terms for a match with Sullivan than 35 per cent. of the receipts. As there is no possibility of making a match with Sullivan en any terms other than those stated Mace will have to agree te them if Slade is to meet the champion. Mace says he will meet Mitchell, but there is nothing in that offer, as the latter is new in California.

## TELEGRAPH TROUBLES.

No Strike as Yet But Condition Feverish.

Action of Western Union Directors-Arrangements Made to Supply Places of Strikers.

New York, July 19 .- At the regular weekly meeting of the executive committee of the directors of the Western Union Telegraph Company, the following was adopted:

Resolved, That a committee, consisting of ex-Governor Cornell, J. W. Clendeniu and John T. Terry be appointed to inquire into the complaints of irregularities of compensation and the condition of service of employes of this company, if any, and report to this committee.

One of the gentleman who attended the meeting says the sentiment was manimonsly in support of the action of General Lekert in his reception of the commutee who culled on him to prescut the memorial on Monday last, and that his letter to Colonel Clowry, of Chicago, omlining the position and resources of the company and calling attention to the exorbitant demands of that committee, was likewise discussed and warmly approved. The meeting did not take cognizance, in fact, of that petition, since it was held that whatever complaints employes of the company might have to make must be made directly by themselves to the company's officers. The sub-committee is not empowered except to make a report next week, on Wednesday, when the lull committee meets again. The composition of the commietee, however, is of some interest, as bearing on the temper of the meeting and its future action. Clendenin, one of the members, is President of the Acadia Conl Company, which has extensive mines in Pictou, Nova Scotia. The miners there have been a turbulent community and have frequently indulged in strikes. Clendenin has always managed these crises, and never yielded to the demands made through the medium of a strike. Ex-Governor Cornell and Terry are also said to be opposed to strikes as a means of settling wage dilliculties. The Wheatstone is a system of rapid transmission of messages and news. It has been in use for many years in England, but is a comparatively new thing in this country. The instrument will do nearly ten times the work that can be done over an ordinary wire. Should the Wheatstone operators remain and the other operators strike, the telegraph company would have a considerable advantage through the use of tins system. The members of the Brotherhood chaim that all the Wheatstone men are willing to go om, while the officers of the company say that not more than two or three of the nineteen local employes and not a large number of those elsewhere will consent to

CLEVILLAND, O., July 19,-The Western Union operators in this city number sixtyfive, while there are 270 members of the Telegrapher's lengue in the city and vicining. They are ready to take their coats and leave the office the moment the strike is ordered. The operators have been looking all day for the order to come. All of the Western Union men will go out on the strike, with the exception of six non-union enerators.

Physnena, July 18 .- All day the vicinity of the Western Union office, on Fifth avenne, was thronged with operators and curiosity seekers, and at the noon hour, when it was expected that the operators would come out, the crowd was so great-that for a time the street was blockaded. A great deal of dissatisfaction is expressed among members of the Brotherhood that the strike was not inaugurated.

#### Valuable Seizure. New York, July 19,-Eight trunks and

two packages were confiscated at the Guion line steamship pier. It was learned that the owner of the goods intended taking them to Mexico, whore he has a large mercantile business. One of the trunks was found to be packed full of the finest silks. laces, head trimming, silk hose, gloves and expensive fabrics of many kinds. They were all in their original packages and had never been used. It was roughly estimated over \$2,500 worth of valuable goods. It is believed that the articles contained in all the trunks will prove te be worth \$20,000 when they are appraised. They were all earefully packed, some enclosed in tin, and one trunk was encased in a dry goods case.

Charlty For The Blind. New York, July 19 .- Mr. William Blake, Superintendent of eutdoor poor, has had a warrant drawn for \$20,000 to cover the sum drawn that, under the act of 1875, the Charity Commissioners are authorized to yearly distribute among the industrious blind residents of this county. The total number whose applications have been approved is 466. It is proposed to pay to

### DEFAULTING TREASURER.

Money Said to Have Been Lost in Speculation by a Catholic Knight. GRAFTON, W. VA., July 20 .- John L. Hechmer, for five years supreme treasurer of the Catholie Knights of America, was defeated for re-election. On June 20, Mr. O'Brien, of Chattanooga, Tenn., the treasurer elected, came to this city. A settlement was had and Mr. Hechmer turned over \$16,000, retained his books and received money till Saturday last. At the time of settlement Hechmer kept \$2,000 to pay a draft supposed to be in transit. The draft did not come and Mr. Hechmer took up the money to express, so he said, to Chatanooga. After the lapse of two weeks the treasurer at Chattanooga telegraphed the bank here concerning the deposit and was wired of liechmer's action. He explained that the money was not promptly sent, but was then on the way. The money not coming, W. E. Russell, of Lebanon, Ky., president of the association, came here on Sunday last. Russell telegraphed to Cumber-

land, and the express messenger said no

such package had been handled there. The

agent here said the same. Hechmer's ollice was searched, and the books found. On

Sunday night he left, and is supposed to be

en route for Europe.
lle made a full confession before leaving. On June 23 he made an assignment for the benefit of a few creditors, but the deed of trest was not offered for record till July 14, His personal liabilities were \$5,000; assets nominal, His bond, in the sum of \$50,000, is said to be worthless on account of irregularities. His father and fathe-in-law are on the bond. So far as can be ascertained now the shortage is likely to reach from \$30,000 to \$50,000. The financial standing of the order is not affec el. His friends saycredits will reduce the shortage to from \$10,000 to \$20,000. He had haudled \$400,-000 in five years.

Sheridan and the citizens of this city who presented him a residence in Washington Cityin anticipation of his assumption of command of the armies of the United States next fall, when General Sherman will retire, will be made public shortly. Ariaour, Potter Palmer, L. Z. Leiter and T. B. Blackstone. The letter is a tribute to Sheridan as a soldier and citizen, and an expression of the warm personal friendship of the donors. General Sheridan's lener of acknowledgment expresses his high appreciation of this neighborly evidence of regard in his chosen home us commander of the department of Missouri, and says when he assumes his new duties the fact that his new home was presented to him by thicago friends, will be a matter of special pleasure to him.

Middle Mass., July 19,-At the funeral of General Tom Thumb, every effort was made to have it as quiet as possible and no display was made. The body was inclosed in a walnut coffin, covered with broadeloth, and trimmed with Masonic embleus. The plate bore the simple inscription, "Charles S. Stratton, aged fortyfive years." The services were conducted by Rev. Dr. Fairbanks, and were very briet and impressive. The Mayflower Lodge of Masons escorted the body to the

ALEXANDRIA, July 18 .- The telegraph announces twelve deaths at Cairo from cholera, and the actual number of fatal cases is believed to be much greater than is reported. It is extremely doubtful if the proposition to isolate Alexandria can be carried ont, even if it is not too late. It is understood the plan is opposed by English officers and ly the Consuls of foreign governments who are unwilling to deprive Europeans of all means of escape. The . cordon will be strictly maintained.

The scores were as follows: Englahd, 698; Canada, 679; Jersey, 638; Guernsey, 621; India, 614.

A revision of the scores made by American riflemen in their shooting Thursday and yesterday for the cup and £50 specially presented for that competition, shows that Van Huesen was victor, as his score for the two day's shooting was 172, against a total of 169 for Joiner.

Paris, July 18 .- The necessity for sending M. Waddington as Ambassador to England, as shown by to-dny's announcement of his appointment, is commented upon by the French press as indicating an annoyingly serious condition of affairs and the existence of complications which the public does not forsce. The return of M. Le-com to the Foreign Office has been a great disappointment to several branches of the Republican party, who had considered his sudden trip to Vichy, with the announcement that he was ill and that his stay would be indefinite, as only preliminary to the resignation of his portfolio. They regard the establishment of perfect cordiality with England as essential in the presence of the triple alliance, and blame the head of the Foreign Office for the misunderstandings growing out of the Mada-

### SCULPTOR'S SUICIDE.

Horrible Discovery In a New York Tenement Monse.

New York, July 19 .- After lying several days in a room in a tenement house the remains of Frank Thavard were found, attention thereto having been attracted by a siekening odor coming from the room. The body was in a sitting posture on the floor, the head resting on an over-turned chair. In his left hand Thavard held a small mirror and in his right a revolver was tightly clutched. The face of the dead man was swollen, and the whole appearance of the body indicated that he must have been dead several days. He had evidently seated himself on the floor, and, after leaning back against the pillow so as to be able to get a good view of his face, deliberately placed the revolver to his head and fired. A ghastly wound on the right side of the head showed where the latal bullet had done its work.

Thavard was up to a year ago a steady workman; but he fell into bad habits, and as these grew upon him he came home nightly under the influence of liquor. After his wife's departuro he lived like a hermit In his room, permitting no female to enter it under any circumstances.

They thought he holsted the flag to anger them, and they not only tore it down, but reduced it to shreds. trampled it in the mud and destroyed the tree. They then, he says, destroyed the vegetables he had growing in his garden.

There is, unfortunately, no royal road to health; so long as the human organism and the elements remain the same, there can be no absolute prevention of disease, of course—the conspiracies against life must exist. But it is feasible to insure the largest average of one, to sensibly lessen the percentage of the other. It requires but little science, and no statistics, to establish the truth of the assertion that we are mainly the archiitects of our own misfortunes in this reral laws, too plain and familiar to de- Second Street, The cholera epidemic continues to mand repetition, is the fruitful source of

Of course this is not without sufficient cause. All such localities are rank poison centers. The aggregate of their vile effluvia there is no arithmetic to estimate, and normal or pure ais is no component thereof. It is alle and absurd to assume the couple took a seat, sharing between them a smile that would have served for hegative in results; if so, all sanitary negative in results; if so, all sanitary principle is a fraud. It is nothing that we have no epidemics-that we do not die in platoons instead of singly. Aerial poisons, especially, are none the less sure for being slow; and then it is only so much ready material, awaiting proper conditions to develop into intensity and virulence. Cholern, introduced at New York, has more than once skipped across the continent, and fluding a lodgment in cities of the far West, enjoying far better conditions than we can boast to-day, has

ravaged them almost to the last soul. Briefly, all this constitutes a prime factor for absolute positive evil, and evil only, dike for the present and inture. #### WARNING TO YOUNG MEN.

LETIN, at Bulger's request, visited his cell at the jail, and received from him fully, seems to be resigned to his fate, ery. Mr. Brooks, in his inforitable manhe would rather be hanged than impristing that he lived a long ways off—so were built, and notwithstanding his long career in crime, is only a few months over twenty-two years of age. The story told stay among us—and so all the people is as follows:

I was in jail several times at New Orleans, generally for fighting and minor offences. I never committed my serious erime there, nor at Cincinnati, as I considered those places the points where I wished to stay. I was at New Orleans frequently, and often met Maysville people. I waited on Mr. Jumes H. Hall and his sons a number of times while I was

at the City Hotel. I was at St. Paul, Minnesota, once, and saw a countryman sell two head of cattle and receive the money for them. I followed him for some time, and then went to him, pretending that I knew him. I got him to go with me to a sapretty drunk, so I took him up a dark don't remember the exact amount. I have often gotten money in this way, and one time took in \$280. I usualiv spent it for good elothes and sometimes a watch, which I would pawn when I

I sometimes worked in barber shops, and while there was often able to commit thefts which were not detected. My plan was to take a man niter he had gotten out of the chair, brush him off, tup him under the chin, and while his head was raised go for his pockets.

I was at one time working with Sells' Brothers eircus and at Greenville, Ind. had some some trouble when I wanted to quit about getting my money. When the train that carried the circus was movwhether I hit him or not I don't know as I did not stop to see.

I wanted to say to the reporter yesterday something about an adventure I had on the lower Mississippi, but forgot it. I was cabin boy on the steamer Florence Myers, commanded by Capt. I was always very quick tempered and often in trouble on that account. I was seldom able to work anywhere more than REV. M. D. I remember onee at the Metropolitan Hotel, New York, where I was elevator boy I got into a fight with one of the guests who was

He was asked by the reporter, "Have you ever put anybody out of the way for that reason?

"Not on the upper Ohio."
"Did you ever do such a thing on the Mississippi river?"

'I should not be surprised if I did," "Can you name any particular instance?

'I cannot." He then resumed his story, and said: There are many other crimes I have been guilty of during my life, but I caunot think of them all now. I want you
